DIGITAL INFRASTRUCTURE ADVISORY

High-level advisory for digital infrastructure, *supported by an AI-native platform*.

INA brings the knowledge, expertise and relationships of its Advisory Board to transform complex digital infrastructure opportunities — fiber backbones, submarine cables, data centers, satellite constellations, AI compute — into mature, investable and sustainable projects, for governments, development banks, investors and technology companies.

THE INA DIFFERENCE

Senior expertise. Supported by AI.

INA is a high-level consulting firm whose potential lies in the knowledge, expertise and relationships of its Advisory Board, supported by a proprietary platform built natively with artificial intelligence.

THE PEOPLE BEHIND INA — ADVISORY BOARD

Juan Martín Ozores
Former President of ENACOM, Argentina (2024–2026)

Darío Genua
Former Secretary of Innovation, Science and Technology of Argentina

Guillermo Francos
Founding Partner, Córdova Francos Abogados

Julián Cohen
CEO, Grupo Cohen

Mateo P. Mlikota
Global SVP – International, e& (Etisalat Group)

Anthony Monaro
Technology & Product Strategy Executive

OUR PROFESSIONALS

- Senior leaders from government, regulation, law, finance and technology
- Direct relationships with ministries, regulators, development banks and investors
- The know-how to lead every engagement to success

THE INA PLATFORM

- Proprietary platform, built natively with AI
- AI supports the analysis, structuring and monitoring of every project
- A tool at the service of our professionals, who lead every decision

ENGAGED ON EVERY MANDATE Senior partners are directly involved in each project.

THE FLAGSHIP — INA FRAMEWORKS™ SUITE

Six proprietary methodologies. One integrated project lifecycle.

F1
Project Structuring Framework™
Transforms opportunities into mature, investment-ready, implementable projects.

F2
Investment Readiness Index™
Scores 8 dimensions from 0–100, from concept stage to investment ready.

F3
Digital Infrastructure Maturity Model™
Evaluates 10 domains, from initial to leading maturity.

F4
AI Advisory Methodology™
Guides responsible AI adoption across five pillars.

F5
Project Risk Assessment Framework™
Identifies, quantifies and mitigates risk across 10 categories.

F6
Multilateral Finance Navigator™
Recommends financing mechanisms across MDBs, DFIs and blended finance.

WHO WE SERVE

Four constituencies. One integrated intelligence layer.

01 / GOVERNMENTS
Ministries & Regulators
– How can we improve national connectivity?
– How do we structure digital infrastructure projects?
– Which financing mechanisms are available?

02 / DFIs
Development Finance Institutions
– Frameworks & evaluation models
– Implementation methodologies
– Technical documentation

03 / INVESTORS
Infrastructure Funds
– Investment opportunities
– Regulatory conditions
– Project maturity and implementation risk

04 / OPERATORS
Technology Companies
– Infrastructure planning
– Regulatory frameworks
– Hyperscale & satellite deployment

INFRASTRUCTURE SECTORS

Telecommunications · Fiber Networks · Mobile Networks · Data Centers · Cloud Infrastructure · Satellite Systems · AI Infrastructure · Submarine Cables · Smart Cities · Energy

Let’s structure your next project.
